

Police Report

PCSO Stuart Carroll sent the Parish Clerk the following message:

Hope everyone is well at the Parish Council.

Please find attached the annual statistics for year ending April 2021. We have had a few issues with the compiling of the statistics for several reasons – we had a new operating system last July which has altered the way we compile our reports and statistical data. You will see from the document I have attached it is in a different format to the ones which I compile every month, and there isn't as much detail as I usually include. However I think for an annual report it represents the information that is required – I hope it makes sense and I have included a key of the abbreviations used, they are just the categories of incidents that West Mercia uses.

As regards the meeting itself, there may be a chance the PC Alderwick may be able to attend the meeting via Zoom – could you send the necessary log-in information for this.

Kind regards

Stuart
